Dhiraj Chandele

Software Engineer

With a total of 3 years of professional experience , I excel in designing and building responsive, user-centric web applications using modern technologies like React, JavaScript, HTML, and CSS. Skilled in creating scalable, high-performance solutions, I ensure seamless functionality through rigorous debugging and testing. Proficient in applying UI/UX principles, collaborating with cross-functional teams, and managing remote workflows, I leverage tools like Git for efficient version control. I stay updated with emerging technologies to deliver modern, maintainable, and efficient web solutions that align with industry standards.
